

2nd October 2018

Hi Tom

We are extremely satisfied with our Cisco equipment and this will no doubt improve our organisational performance. The DX80 and Room 55 units are extremely user-friendly and the Cisco Platform will allow our organisation to spend less time on the road and more time doing our work. The service from eVideo was equally impressive, from procurement through to installation and we are very satisfied with our choice.

Regards

Jordan Smith | **Geographic Information Systems Officer**
